WINEMAKING

- hand harvested in the cool early mornings
- whole bunch pressed
- fermented in stainless steel tanks at cool temperatures to allow for a long slow ferment to develop complexity and texture while maintaining the delicacy of the wine
- wine left sur lie for 4 months before a light filtration prior to bottling

TASTING NOTE

Our elegant and delicate Rosé Pinot Noir is a beautiful light pink colour with aromas of rose petals, wild strawberries, and pomegranate. On the palate, you will discover many layers of flavours and richness from watermelon, strawberry and rhubarb pie, raspberry, and slate.

This wine is best enjoyed in its youth when it is showcasing the great characteristics of its vibrant floral and fruit notes.
