Residual sugar: 93g/l
Harvested: N/A
Bottled: 27th May 2021
Released: 15th July 2021

TASTING NOTE

A favourite amongst port lovers, this wine's tantalizing and warm spice aromatics soothe the soul. Crafted using a Solera system, our Tawny has developed bouquet reminiscent of Christmas cake – dates, prunes, walnuts, and molasses– with a drizzle of warm butterscotch sauce.

While considered sweet it finishes dry with a long lingering aftertaste. One sip and you'll discover the perfect companion on a cool evening around a cozy fire.

Since the Tawny is a combination of vintages, it will not benefit from any additional cellaring. It is already showing the beautiful and complex characteristics that come from the multiple years spent in neutral barrels.

SOLERA SYSTEM

The Solera System is the aging of wine by blending small fractions of the contents from different aged barrels in such a way that the finished product is a mixture of ages - with the average age gradually increasing as the process continues over many years.
